SUMMARY

As an experienced software engineer, excited at the prospect of developing designs and resolving software issues in a professional setting. Adaptable worker recognized by peers for my effective teamwork and communication skills. Looking to apply my understanding of Python and Java at your company

PROJECT EXPERIENCE

Workspace Management System

2023-24

- Developed a comprehensive Workspace Management System using Python, designed to streamline and optimize workspace allocation and management.
- This project honed my skills in Python programming, database management, and user interface design, and reinforced my ability to deliver efficient and user-friendly software solutions.
- It includes Data visualization of employee work, Work allocation, management of employee salaries, work and also profit of company through their respective work.

Student Monitoring System

2023

- Designed and implemented a robust Student Monitoring System to enhance the efficiency and accuracy of academic administration.
- By completing this project, Not only enhance my technical capabilities but also develop critical soft skills that are valuable in a professional software engineering environment
- It includes functions of Attendance and marks records, Studies and lecture Records, managing student personal and academic details.

Morse Code Translator

2023

- Designed and developed a Python-based Morse Code Translator App that enables users to translate English text to Morse code and vice versa. The app utilizes a dictionary to map English characters to their corresponding Morse code sequences, providing a simple and intuitive interface for users to input text and view translations.
- This project demonstrates my ability to design and develop a functional app using Python programming language. It showcases my problem-solving skills, attention to detail, and ability to work with data structures and algorithms.

SKILLS

PROGRAMMING

- Python
- Java
- Full Stack Web Development
- SQL
- C Programming
- HTML/ CSS/ JS

SOFT SKILLS

- Communication
- Problem Solving
- Teamwork

OTHERS

- DSA
- OPERATIONG SYSTEM
- MICROSOFT OFFICE
- DBMS
- Git/ Github

EDUCATION

COLLEGE/UNIVERSITY

- Konkan Gyanpeeth College of Engineering, University of Mumbai
- CGPA :- 7.5

JR.COLLEGE

- S.H Jondhale Jr.College, Dombivli, Mumbai
- Percentage :- 63

SCHOOL

- S.H Jondhale Vidya Mandir, Dombivli, Mumbai
- Percentage :- 82

CERTIFICATION & COURSES

- 100 Days of Code: The Complete Python Pro Bootcamp
Udemy
- The Complete 2024 web Development Bootcamp
Udemy

LANGUAGES

ENGLISH : Intermediate

HINDI : Fluent

MARATHI : Basics
